A few things worth knowing

Coffee, without guesswork

Fill the kettle only to the marked line. Put one paper filter in the dripper, then add one scoop of ground coffee per mug. Pour a little hot water first; wait 30 seconds, then pour slowly. Empty grounds into the food-waste caddy.

Dishwasher

Remove food scraps. Put one tablet in the dispenser and close its lid. Select Eco, press Start, then close the machine. Please do not wash the wooden boards or cast-iron pan in it. The full appliance manual is in the kitchen drawer.

Warmth & fresh air

Turn the hallway thermostat to your preferred temperature. Keep windows closed while heating is on. Air the bathroom after a shower using the fan switch beside the light. Please leave the thermostat at 18 C when you depart.

Waste & recycling

The small lidded caddy is for food waste. Use the labelled kitchen bins for packaging and general waste. Take tied bags to the bins beside the garden gate before checkout. Glass goes in the separate crate.

One more morning

Three ways to spend an hour

Orchard lane. A gentle 20-minute out-and-back from the garden gate. Muddy after rain.

Village green. A 10-minute walk along the paved lane. The bench faces the afternoon sun.

A book indoors. Borrow from the sitting-room shelf; please return it before leaving.

Before 10:00

Wash used dishes, check drawers, close windows and leave keys in the hallway bowl. Message your host through your booking channel when you leave.
